ABOUT ME

UI/UX Designer with experience in designing intuitive, user-centered digital products for web and mobile platforms. Skilled in user research, wireframing, prototyping, design systems, and creating responsive interfaces using Figma. Experienced in delivering end-to-end design solutions across industries including IT, construction, pest control, healthcare, and media. Additionally, I have hands-on experience in front-end development using Antigravity, enabling me to transform design concepts into functional and responsive user interfaces. Passionate about creating seamless user experiences that balance user needs with business goals.

EXPERIENCE

Flux Visio Dynamics LLP

April 2025 - July 2025

UI UX DESIGNER(internship)

I worked as a UI/UX Designer Intern at FluxVisio Dynamics LLP, where I designed the complete interface for EatOpae, a hotel food ordering application for both desktop and mobile platforms. I focused on creating user-friendly designs, ensuring smooth user flow, and collaborating closely with the development team to bring the designs to life.

EXPERIENCE

Zhians

July 2025 - October 2025

UI UX DESIGNER(internship)

Zhians Pvt Ltd — UI/UX Designer (Internship)
Designed the complete doctor-side interface for a pregnancy & fertility app.
Created user flows, wireframes, and high-fidelity screens in Figma.
Collaborated with product and development teams to ensure design accuracy.
Contributed to marketing visuals including posters and presentation materials.

Tesco Digitals

jan2026- Present

UI UX DESIGNER / Frontend Development

Tesco Digitals – UI/UX Designer & Front-End Developer
At Tesco Digitals, I design user-friendly and responsive websites and web applications using Figma. I create wireframes, prototypes, and design systems, while also developing front-end interfaces using Antigravity. I collaborate with teams to deliver visually appealing, functional, and seamless digital experiences that meet user and business needs.

UI/UX Design Projects

- Tesco Digitals (IT Website): Designed a responsive corporate website to showcase IT services and solutions.
- Tesco Structures: Created user-friendly website designs for a structural engineering and construction company.
- Nemo Construction: Designed website interfaces focused on project portfolios and service offerings.
- Sakthi Roofing & Interiors: Developed modern UI designs for roofing and interior design services.
- TesCare (Pest Control Website): Designed service-oriented user experiences with intuitive navigation and lead-generation elements.
- Marai Malai Murasu (News Website): Designed a news portal with structured content layouts and enhanced readability.
- ERM (Employee Attendance Mobile App): Designed mobile app interfaces for attendance tracking, leave management, and employee monitoring.

Front-End Development Projects

- ERM (Employee Attendance Web Application): Developed responsive web interfaces for attendance management and administrative operations using Antigravity.
- Travel Mate: Developed front-end interfaces for a travel companion platform that enables users to connect and travel together.
- TesCare (Pest Control Website): Converted UI designs into responsive and functional web pages using Antigravity.
